Bio Body Program Outline:

Days 1-26 Weight Alignment (Take: Bio Body **SLIM**)

Pioneering an energetic homeopathic glyco-protein HCG, plus other supporting homeopathics, minerals and herbs, Bio Body **SLIM** enables you to access your stored fat to make up for the calorie shortfall during the weight loss phase. Enabling you to release "pounds and inches".

This phase includes two days of eating high quality fats and nutrition rich foods, followed by 23 days of specific low calorie eating.

Days 27- 49 Consolidation (Option: **Carb Craver - TSC**)

Normal eating resumes during this phase, but you slowly introduce new foods that you haven't eaten during the previous 26 days to work out which ones you can eat without causing weight gain. During the reintroduction of new foods you want to stay within 1kg of your finishing weight (your weight on the morning of Day 27).

During this phase you continue to stay away from refined carbohydrates and sugars (these are reintroduced during the next phase). Your weight should stabilise during this phase. If it doesn't, then we recommend taking Bio Body Carb Craver **TRIPLE SLIM COMPLEX** for a minimum of two weeks. Homeopathically formulated to naturally

increase weight loss and boost metabolism, Bio Body Carb Craver **TRIPLE SLIM COMPLEX** is a combination of three biochemic cellular-supporting homeopathic tissue salts, plus additional herbs, minerals and homeopathics to prevent inflammation and support normalisation of fat storage, as well as prevent the hunger spikes that cause overeating. It helps you stop yo-yo dieting through improving your digestion and metabolism, ensuring weight released is not regained.

From Day 50 Maintenance (Option: **Carb Craver - TSC**)

Normal eating resumes.
